TO: Kyle Thiessen
Code Reviser

FROM: Tami Thompson
Department of Health Regulatory Affairs Manager

SUBJECT: WITHDRAWAL OF CR-101 – WSR 11-11-046

This memo serves as notice that the State Board of Health is withdrawing the CR-101 for revising the fluoridation of drinking water rule for Group A Public Water Supplies filed on May 13, 2011, and published as WSR 11-11-046. The original proposal was to consider revising the fluoridation concentration range based on federal recommendations. Since the filing of WSR 11-11-046, the State Board of Health has determined that the scope of this pre-proposal should include consideration of public notification requirements. For this reason, the State Board of Health will be filing a new CR-101 that clearly states the purpose and scope of possible rule making.

Individuals requiring information on this rule should contact David DeLong, Health Policy Advisor, State Board of Health, at (360) 236-4111 or david.delong@doh.wa.gov

cc: Clark Halvorson, Director, Office of Drinking Water
